Lily, This is really short, so I will try to get back to Lansdale before Enrique's call with Laura. I would appreciate it if you can take a quick look at it too, esp. section 2 Scope, to make sure you think they're not boxing us in on any particular issue. A second set of eyes would be helpful to me. It's a pdf so I don't have the software to edit it. So I will probably just mark it up. You can provide verbal comments to me when convenient or mark it up if you can.

Thanks, John

Please find attached a Draft MOU for the radiological re-work at HPS. If this meets your needs we will send a signed version and then work on the MIPR for the funding. If you have changes we will need to circle back with OSD so my preference is to use this unless you have a significant change.

Thanks
Lawrence
